WALKING JAZZ LINES FOR BASS (PAPERBACK)

To read **Walking Jazz Lines for Bass (Paperback)** PDF, you should access the web link listed below and save the file or gain access to additional information which might be have conjunction with WALKING JAZZ LINES FOR BASS (PAPERBACK) book.

Mel Bay Publications, United States, 2002. Paperback. Book Condition: New. 295 x 218 mm. Language: English . Brand New Book. The bass has been called the most important instrument in any band. The bass player must create interesting lines under the chord changes, keep the time flow or pulse steady, and keep the form of the song together. This book is designed to help bassists create beginning to advanced walking patterns (smooth-sounding lines) that can be used in jazz, blues, RB, gospel, Latin and country music. By explaining the basics of intervals, chords, and scales the author builds a framework for understanding bass line patterns. Then the book presents one- and two-measure patterns that can be used in playing the blues, rhythm changes, the II-V-I progression, and 20 popular jazz standards. The book is written in standard notation with chord symbols. The CD gives you the opportunity to play with one of the finest rhythm sections around. It is in stereo, with the bass and drums on the left and piano and drums on the right. Since the examples in the book are presented both with sample bass lines and as chord progressions only, you can either follow along with the bass or practice your own lines with the CD as your accompaniment. Also available in Japanese from ATN, Inc.
