Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Contractors , Builders , And Carpenters Building Table and Estimate Book: Being a Systematic, Thorough and Practical Method by Which to Estimate the Cost Material, With Full and Complete Instructions The Author does not claim any invention or new discovery; there is nothing contained in the work that should not be familiar to all experienced builders. But to such, as a book of reference, it will be of great convenience, saving them much time and labor in making estimates. Many builders have long experienced the need of such a work, that would greatly lessen the time and labor in estimating the cost of building, and at the same time teach the workman the art of calculating the cost of buildings. The special object of which is to show the proper method of obtaining the cost of any contract, large or small, and to greatly lessen the time and labor in making the calculations. The greater part of the book is unlike any other work, with so great a variety of full bills of timber giving the number of feet of frame lumber, boarding, clapboarding, shingles c., in over two hundred buildings of various dimensions, commencing with the size of 8 by 10 and gradually increasing to 100 feet in length with proportionate width. With such a variety one can hardly fail of finding the desired size with the number of feet annexed The rules for measuring dimension lumber, wood and bark, will here be found the shortest and best methods for making such measurements, giving such examples and explanations as cannot be found in any Arithmetic. These rules and examples are so thoroughly explained...
