

Construction Materials: Their Nature and Behaviour (Paperback)

Filesize: 7.75 MB

Reviews

The most effective publication i at any time read. We have study and i am sure that i will likely to read yet again once again in the foreseeable future. You will not truly feel monotony at anytime of your time (that's what catalogs are for about in the event you request me).

(Mr. Rafael Hoeger)

CONSTRUCTION MATERIALS: THEIR NATURE AND BEHAVIOUR (PAPERBACK)

To get **Construction Materials: Their Nature and Behaviour (Paperback)** PDF, make sure you refer to the hyperlink listed below and download the document or have access to additional information which are in conjunction with CONSTRUCTION MATERIALS: THEIR NATURE AND BEHAVIOUR (PAPERBACK) ebook.

Taylor Francis Ltd, United Kingdom, 2010. Paperback. Book Condition: New. 4th Revised edition. 240 x 186 mm. Language: English . Brand New Book. So far in the twenty-first century, there have been many developments in our understanding of materials behaviour and in their technology and use. This new edition has been expanded to cover recent developments such as the use of glass as a structural material. It also now examines the contribution that material selection makes to sustainable construction practice, considering the availability of raw materials, production, recycling and reuse, which all contribute to the life cycle assessment of structures. As well as being brought up-to-date with current usage and performance standards, each section now also contains an extra chapter on recycling. Covers the following materials: * metals * concrete * ceramics (including bricks and masonry) * polymers * fibre composites * bituminous materials * timber * glass. This new edition maintains our familiar and accessible format, starting with fundamental principles and continuing with a section on each of the major groups of materials. It gives you a clear and comprehensive perspective on the whole range of materials used in modern construction. A must have for Civil and Structural engineering students, and for students of architecture, surveying or construction on courses which require an understanding of materials.
